MACHINERY FOR BLINDS

Control panel

**SOME IMPORTANT FEATURERS ARE:**

- Automatic laying of the fabric.
- Worktop in stainless steel.
- Possibility of entering orders via barcode.
- Transversal cutting length 3.5 meters.
- Longitudinal cutting 5.8 meters.
- All functions are controlled by the industrial PC
- Emergency buttons
- All mechanic, electronic and pneumatic parts are guaranteed by UNI norms
- Machine TR 3500 ECO has been built and designed according to CE norms

Ultrasonic and Crush cutting head

Coils holder

**DIMENSIONS AND WEIGHT**

- Length 7800 mm
- Height 1500 mm
- Width 4850 mm
- Weight about 2350 Kg.

**TECHNICAL SPECIFICATIONS**

- Electric supply 220 V – 50/60 HZ
- Average electric consumption: 3 KVA
- Air supply : 6 BAR
- Average air consumption: about 60 lt/min
