

# MACHINE FOR VENETIAN BLINDS

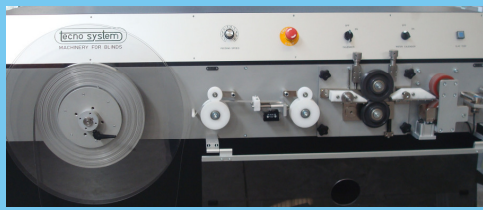

## TV 3000 CN

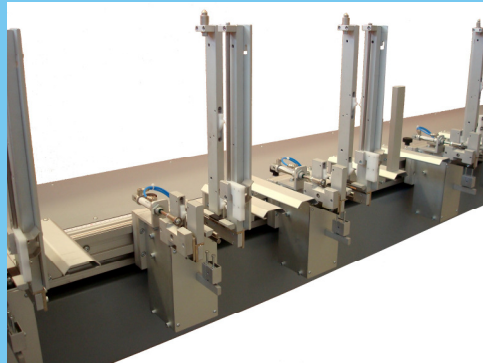

Semi automatic machine for venetian blinds forming, punching, cutting and threading 12.5mm, 15/16mm and 25mm slats. It is a machine that fully responds to the demand for simplicity and versatility, with a high level of productivity. The new version created in 2013 has been significantly improved in terms of performance, reliability, attention to detail and design. Quick replacement of the spare kit to process a different slat size. On request the TV3000 CN can be configured for processing 35mm and 50mm slats.
